

ONCOLOGY ~ Leukemia and cancer patients

GENESIS, 18 MONTHS OLD. SHE'S THE SWEETEST LITTLE GIRL WE EVER MET. GOT ATTACHED TO GRACE SO MUCH THAT SHE WAS CRYING IF SHE WAS NOT WITH HER. WE ALSO BECAME VERY FOND OF HER.

PLAY IS THERAPEUTIC IN THREE WAYS:

1. It is sometimes aimed at helping children prepare for operations or procedures.
2. Play is also used to help children express themselves.
3. Many children who are coping with serious illnesses have been in many ways, robbed of their childhood. They are forced to deal with life and death issues at an early age and most of them try to put on a brave front for their families and care givers. Play gives them a reprieve and chance to laugh and relax.

LUZ, TEEN VOLUNTEER WITH A LITTLE GIRL THAT JUST CAME IN THAT DAY FOR HER FIRST TIME -THE DOCTORS FOUND CANCER.

FLOR, A FULLTIME WEEKLY VOLUNTEER HAS A REAL LOVE & TALENT TO MAKE CHILDREN LAUGH & HAVE A GREAT TIME!
