

WORKSHOPS: THROUGH GAMES, STORY TELLING & OTHER ACTIVITIES WE ESTABLISH A REAL FRIENDSHIP, WHICH HELPS THEM TO COPE WITH THE FEELING OF LONLINESS & DESPAIR. AT THE SAME TIME THEY FEEL AT EASE TO EXPRESS THEIR EMOTIONAL & PHYSICAL HURTS.

Tania is 7 years old, a very sensitive & sweet little girl. She had a mishap of being trapped in her bedroom at home when it caught fire. As it was being completely consumed in flames, a next-door neighbor risked his own life to save her. A complete miracle! Little Tania suffered by 70% of her body being burned. She has been coming to the hospital since her mishap for skin grafts & cures every month. The medical staff is trying their best to graft skin to certain parts of her body. When we first came to know her, she was very sad & introverted. Here in the picture with Michael, she loved his accent & the funny things he said in English & Spanish. You couldn't help not loving that girl. She has gone through so much in such a short time. These are the little ones we come in contact with every week who need your help.
